

H360 Manage (for board owners and their staff)

First release (V1.0, months 2-4)

- **Add your boards:** upload your existing Excel sheet and we load all your boards in one go. We fix the bad rows with you instead of making you start over.
- **One page per board:** location, size, lighting, photos, rates, permits, contracts and history, all in one place.
- **Two-sided boards:** each side is sold, priced and tracked separately.
- **Permit reminders:** you get a warning 90, 60, 30, 15 and 7 days before any licence or NOC expires, then every day after it lapses.
- **Expired permits hide the board:** a board with an expired permit is taken off sale automatically, so you never sell an illegal board.
- **Contracts in one place:** who booked which board, for how long and at what price.
- **Contract ending alerts:** your sales team is told well before a client's contract ends.
- **See which boards go free soon:** a list of boards becoming vacant in the next 30, 60 or 90 days.
- **Sell before a board goes empty:** a board is marked "available from" a date while the current ad is still running.
- **No double booking:** the system blocks two contracts on the same board for the same dates.
- **Live campaigns:** every ad running right now, and how many days each has left.
- **Revenue:** money coming in by month, board, client and area, plus revenue per board.
- **Board history:** past campaigns, tax receipts, electricity bills and repairs on one timeline.
- **Document storage:** every licence, agreement and bill is stored safely, with old versions kept.
- **Morning dashboard:** occupied versus empty boards, permits at risk, contracts ending, and money lost on empty boards.
- **Map of all your boards:** coloured by whether each one is booked and whether it is legal.

- **Staff access:** each person sees only what their job needs. For example, sales staff never see your lowest price or your costs.
- **Full history of changes:** who changed what and when. Nothing is ever deleted.

Month 5 (V1.1)

- **QR sticker on every board:** scan it to open that board's page.
- **Complaints and repairs:** log issues such as a broken light or a torn flex, with photos, and track them until fixed.
- **Proof the ad is up:** photos with location and time stamps, packaged into a report for the client.
- **WhatsApp and SMS alerts.**
- **Client reminders:** your clients can be reminded automatically before their contract ends.

Months 6–8 (V2.0, marketplace goes live)

- **Buyer enquiries:** they come into one inbox, with a 24-hour reply timer.
- **Price requests:** you choose whether to show prices, show a range, or give them on request.
- **Hold requests:** accept or decline a buyer's request to hold a board for a few days.
- **Marketplace stats:** see how many people viewed and enquired about each board.

Month 9 (V2.1)

- **Quick proposals:** pick boards on a map and get a branded PDF or PowerPoint in minutes.
- **Share a link with clients:** they approve or reject each board online.
- **Campaigns across many boards:** manage one client's booking on 50 boards as a single campaign.
- **Sales pipeline:** track leads, follow-ups and renewals.
- **Special offers:** create a discount on empty boards and send it to past clients by WhatsApp or email.
- **Pay to be featured:** pay to show your boards higher in search results.

Months 10–12 (V3.0)

- **Quotes and online signing:** send quotes, and turn accepted ones into agreements that clients sign online.
- **Invoicing:** GST invoices are created automatically and clients pay by UPI, card or net banking.
- **Payment tracking:** see who has paid and who is overdue.
- **Accounting export:** send your data to Tally or Zoho.
- **Paid blocking terms:** set how much advance a buyer pays to lock a board.

Months 13–16 (V4.0)

- **Field job assignment:** send installation and repair jobs to technicians and track how quickly each is done.
- **Land rent:** track rent owed to landowners, with payment reminders.
- **Electricity and costs:** electricity bills and other costs recorded for each board.
- **Supplier management:** printers, electricians and crane operators, with orders and ratings.
- **Board health score:** one number showing which boards need attention first.
- **True profit per board:** revenue minus rent, electricity, tax and repairs.

Months 17–24 (V5.0)

- **Smart pricing tips:** suggested rates, each with a plain explanation.
- **Vacancy forecasts:** a warning about which boards are likely to go unsold.
- **Advanced reports:** heatmaps and a report builder.

H360 Marketplace (for brands, agencies and small businesses)

Months 6–8 (V2.0, public launch)

- **Search by location:** type a city, road or landmark and see boards on a map.
- **Filters:** dates, board type, size, lit or unlit, and budget.
- **Only free boards:** you see boards that are actually free for your dates.

- **Board page:** recent photos with the date each was taken, size, lighting, price, permit check and availability calendar.
- **Cart across owners:** add boards from different owners and cities into one cart.
- **One request, one view:** ask for a full quote once, and all owners' replies appear together with a total.
- **Price on request:** when an owner hides the price, you ask and they must reply within a set time.
- **Hold boards free:** keep boards held for 2 to 7 days while your client decides.
- **Messages in one inbox:** every conversation with owners is in one place.
- **Verified sellers:** only verified owners, with a date showing when each board was last checked.

Month 9 (V2.1)

- **Special offers:** see discounts and filter for boards on offer.
- **Owner proposals:** review a proposal an owner sent you and approve boards online.

Months 10–12 (V3.0)

- **One quote document:** a single quote covering all owners, with GST.
- **Pay to lock:** pay an advance to lock your campaign dates.
- **Sign and pay online:** sign agreements on your phone and pay by UPI, card or net banking.
- **Campaign tracking:** see which boards are waiting to go up, are live, or have finished.
- **Automatic proof:** photos that your ad is up arrive without you asking.
- **Report problems:** flag an issue with a board in one tap.
- **Add your team:** give team members their own logins.

Months 13–16 (V4.0)

- **Agency accounts:** separate workspaces for each client.
- **Agency quotes:** agencies send their clients quotes with their own commission included.

Months 17–24 (V5.0)

- **Past advertisers:** see which brands advertised on a board before, only where the owner allows it.
- **Audience estimates:** estimated traffic and number of people who see each board.
